

"We have made a (probably) best-used Star Rail Assistant"

Thank you very much to everyone who participated in the closed beta and provided us with different valuable suggestions during the closed beta.

At the same time, we would also like to thank Meiji for his great help and suggestions, providing us with guidance on various high-end functions, and trying to integrate [this article](#)?

Intro

Stargazer 2 was developed by [Coding Band](#), and will upload to Google Play and App Store, which hope trabilizer can try our app in both Android and iOS devices

⚠ Please be careful on package name!!! Do not download versions that are not distributed through the following channels!!! ⚠

- [com.voc.honkai_stargazer_gp](#) ([Google Play](#))
- [com.voc.honkaistargazer](#) ([App Store](#))

✉ If you want to cooperate with us, please contact us via joining our [Coding Band - Official Server in Discord](#)

Highlights

Character Proficiency

[No need to login] Character, Relic Score ranking

You can query by UID / click on the avatar of any user in the message area to view the user's role rating!
P.S. The scoring criteria and weights are still in testing.

[No need to login] Leaderboard

Currently, Stargazer 2 provides *Proficiency Leaderboard*, **MOC Leaderboard** and **Pure Fiction Leaderboard**
Proficiency Leaderboard

- Provides the character proficiency ranking of all logged-in users in this character
- Press the user name to view the detailed proficiency information of the specific character from this user.

MOC Leaderboard and **Pure Fiction Leaderboard**

- Provides the ranking of all logged-in users in the specified MOC / Pure Fiction
- Short press the character avatar to switch between display Character Level / Eidolon
- Short press the level name to switch between Node 1 / Node 2
- You may switch the MOC / Pure Fiction version at the top of leaderboard

P.S. The proficiency data comes from in-game data of logged-in users. (Which set by user in "Support Character" and "Starfaring Companions")

P.S. The MOC & Pure Fiction data comes from in-game data of logged-in users.

Community

[May need to login] Trabilizer Comments Function

You can use this function via select a character in character list, then scroll to the bottom

- [No need to login] Read other's comments and team builds (Plan to develop)
- [Pls login first] Send comments, giving likes
- [Pls login first] Send stickers
- [Pls login first] Share your team build (Plan to develop)

P.S. Please use the message function rationally. Users are not allowed to wash pages, post any form of advertising, send any swear words, personal attacks, insults, inappropriate remarks, phishing links, 18-year-old prohibited / NSFW or metaphorical erotic images/videos/words such as suicide and self-harm, and Any verbal/behavioral harassment of others. If you find the above comments, please capture the evidence immediately and report it to the server MOD.

[No need to login] UID Search

You can search UID between any server

Please use the query function rationally and do not perform enumeration actions.

[No need to login] User Character Showcase

You can search UID between any server

Please use the query function rationally and do not perform enumeration actions.

[No need to login] Characters, Lightcones and Relics Info Search

[No need to login] Star Rail Event List

[No need to login] Easter Eggs

Account Status
